The AAU President Meets with the New Faculty Members

Within the fabric of the Presidency's keen to convey with the academic body of the University and the presentation of the new student services, Prof. Ghaleb Awad El Refae, the AAU President, has had a meeting with the staff members who have joined the family of the University in various faculties, where he received them and complimented for the beginning of the new academic year 2015/ 2016.

And Prof. Ghaleb El Refae oriented the University's future that is progressing towards development and quality. He emphasized that the University's foundations are compatible with the CAA standards in the Ministry of Higher Education and Scientific Research, adding that the University relies on upgrading several important axes, which are the academic and administrative bodies, students, learning, research and scientific activities and interaction with the community. He too emphasized the importance of scientific research to satisfy the demands of society, the State, economic reality and UAE education.

The President also observed the demand to keep a beneficial relationship when linking between the students, the faculty and the University Administration. He even mentioned that all staff members must be entrusted to their office hours, work books and work on the development of educational activity, which is considered one of the most important quality assurance measures for the solid achievement of the vision in accordance with the University's strategic plans.
