## **AAU Hosts More than 200 academicians and researchers to discuss the latest computer systems**

In collaboration with the IEEE and Arab Computer Society (ACS), Al Ain University organized the 16th ACS/IEEE International Conference on Computer Systems and Applications, which lasted for five days at the AAU campus in Abu Dhabi. Where, this conference is the premier conference covering all contemporary areas in computer systems and applications and hence it is an international forum for leading researchers and practitioners in this important and rapidly changing disciplines.

The conference was attended by Prof. Saleem Al Hariri- Founder of the Conference, Prof. Mahdi Zargayouna- General Chair of the conference, Prof. Ghaleb El Refae- AAU President, Dr. Amer Qasem- AAU Vice President, Dr. Qutaibah Al Thebyan- Dean of the College of Engineering, AAU Deans and Deputy Deans, College of Engineering academic staff and students from both campuses Abu Dhabi and Al Ain. In addition to, more than 200 academicians and researchers from all over the world.

In the opening ceremony, the Dean of the College of Engineering welcomed the guests and attendees, and provided special thanks to all the organizers. He also praised the role of the Al Ain University in applying the latest technologies in education and modern technology strategies.

AAU President said, hosting of this conference with the participation of a selection of speakers and researchers from all over the world comes in line with the recent developments in the world of technology. He also stressed the keenness of Al Ain University to pay attention to scientific researches and support researchers.

More specifically, the conference seeks to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of the Computer Systems and Applications. It also provides an interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Computer Systems and Applications. Attending AICCSA 2019 is an opportunity to build networks with other academics and experts in the same or similar field of studies all around the world and to share thoughts on recent advances and technological breakthroughs. It is an opportunity to expand their knowledge and upgrade performance in accomplishing institutional objectives. AICCSA 2019 brings together people who share a common discipline from different parts of the world, bringing different forms of ideas which build into something greater. As you step up and attend conferences you build a network of people who can raise your caliber of work to greater heights as you achieve shared objectives.

At the end of the conference, the keynote speakers were presented with certificates and recognition shields, and the chairpersons, researchers, participants, organizing committees and winners were honored with the best paper presented at the conference.
