An Entertainment Trip to Ski Dubai

The College of Engineering at Al Ain University (Abu Dhabi Campus) organized an entertainment trip to Ski Dubai for The College of Engineering students, supervised by Eng. Huda Al Heeh and Eng. Esra Al Nashash.

The trip aimed to let students recharge and enjoy a day away from books and lectures, where the students had a great time, full of energy and smiles.

This trip brought our engineering community closer, as students returned to campus, it was clear that the Ski Dubai excursion added a special touch to our shared experiences.
